I am a Software Developer with a strong background in both android and backend development, and I am excited to put my skills to use in a professional setting. I have been specializing in app development since 2019. I am a quick learner and a team player. I am confident in my capacity to contribute significantly to the success of software projects.

TECHNICAL SKILLS

- Programming Languages: Kotlin, Java, C#, Javascript
- Web Technologies: ASP.NET MVC, ASP.NET API
- Mobile Development: Android Native(Kotlin/Java)
 - MVVM
 - Retrofit
 - RoomDb
 - Jetpack Compose
 - Third-party SDKs
 - WorkManager
 - View Binding
 - Hilt
 - Sqlite
 - Coroutines and Flow
 - LiveData
- Database Knowledge: MSSQL, Oracle
- Other Technologies: CI/CD Pipelines, Git, Jira, Confluence, Scrum, Agile, Retrospective

PROFESSIONAL EXPERIENCES

Software Engineer - Android Application Development

Aug 2020 - Present

- Worked within an Agile team to develop advanced Android applications.
- Developed the software development for assessment management and field operations mobile applications, serving prestigious private institutions such as Gediz Elektrik, Botaş, ADM Elektrik, and Acibadem.
- Proficiently addressed bug fixes, optimized app performance, conducted thorough code reviews, and implemented feature enhancements.
- Helped end-to-end project management, including analysis, design, development, debugging, testing, and successful deployment. Integrated third-party libraries and APIs were used to enhance the application functionality of the applications.
- Engaged in customer communication, analyzed software requirements, and translated technical needs into effective application solutions.
- Stayed updated on new developments in software and technology and helped incorporate them into the app development process.
- Mentored and assisted new developers in learning best practices and gaining practical experience in software development.

Tech Stack: Java/Kotlin Android, Oracle/Sql Server, Asp.Net Api

Personal Projects & Freelance Work

- Developed and deployed personal Android applications showcasing application design, coding and deployment skills.
- Independently managed all aspects of project development including requirements analysis, design, coding, testing and deployment.
- I have maintained my strong commitment to stay abreast of the latest industry trends and technologies and ensure the delivery of cutting-edge solutions.
- Google Play Store Developer Page: [Link to Apps in Google Play Store](#)

Tech Stack: Java/Kotlin Android, Nodejs, Vue.js, Construct 3

Software Tester

Jun 2019 - Jul 2020

- Helped build and maintain automated unit and integration tests using Selenium(C#).
- Streamlined Continuous Integration/Continuous Deployment (CI/CD) pipelines were used to automate the execution of test cases, speed up the feedback loop, and improve software quality.

Tech Stack: C#, .Net, Selenium

TECHNICAL PROJECTS

- Acıbadem Hospital Group Asset/Asset Management, Software Engineer
- BilgiYön Asset/Asset Management, Software Engineer
- Aydem and Gediz Electricity Distribution Electricity Meter Reading Mobile Application, Software Engineer, BilgiYön Yazılım
- Aydem and Gediz Electricity Distribution Asset/Asset Management, Software Engineer, BilgiYön Yazılım

SOFT SKILLS

- Teamwork and communication
- Time management
- Flexibility
- Self-learning
- Owning up to errors
- Creative problem solving
- Analytical thinking
